Rev. Edward Robinson,

Sir, I have received your favor of the 6th inst.

My investigations respecting the Robinson family have been confined to the descendants of Isaac son of Rev. John Robinson of Leyden. There is satisfactory evidence that Isaac was his son; but I have seen none that William of ~~Duxbury~~ Dorchester was.

By means of ~~Professor~~ President Ezra Stiles copy of Rev. John Lathrop's records, made in 1769, much information is obtained respecting Isaac's family, but nothing respecting any of his brothers or sisters.

Isaac was disfranchised for holding too liberal opinions during the reign of terror in the Old Colony. He removed to Martha's Vineyard, then a part of New York, & As his will has never been discovered I have thought it possible it might be in the archives of the State at Albany. Can you ascertain? It may throw light on the subject of your inquiry.

Respectfully Yours Amos Otis
